Safety
- All chemical hood policies are in place using the tanks.
- Chemical buddy required for all work outside normal business hours (8 AM - 6 PM M-F)
- Solutions are corrosive and toxic. Review MSDS for solutions before plating.

Process Restrictions
Material Restrictions
- No loose or flaking material allowed in baths.
- Photoresist must be hard baked before plating to prevent lifting.

Parameter Restrictions
- None

Scheduling / Sign-up Restrictions
- None

Requirements (Do Every Time)
- Properly clean up tanks when finished and allow to dry
- Properly record charge run through bath and enter in CAC supply charges if needed.
- Be sure to use proper tanks for your plating.

Prohibitions (Never Do)
- DO NOT add any chemicals to solutions.
- DO NOT leave solution poured up

Common Problems

<table>
<thead>
<tr>
<th>Problem:</th>
<th>Root Cause:</th>
<th>Solution:</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power to panel</td>
<td>CAC interlock</td>
<td>Log into CAC</td>
</tr>
</tbody>
</table>

Other Comments or Cautions
- Solutions are expensive and used by all. Please be very careful not to spill or contaminate plating solutions.

Calls to staff phones will be automatically forwarded to their cell phones during accessible hours. At other times leave a message or send them an email.
